Construction works in your area…

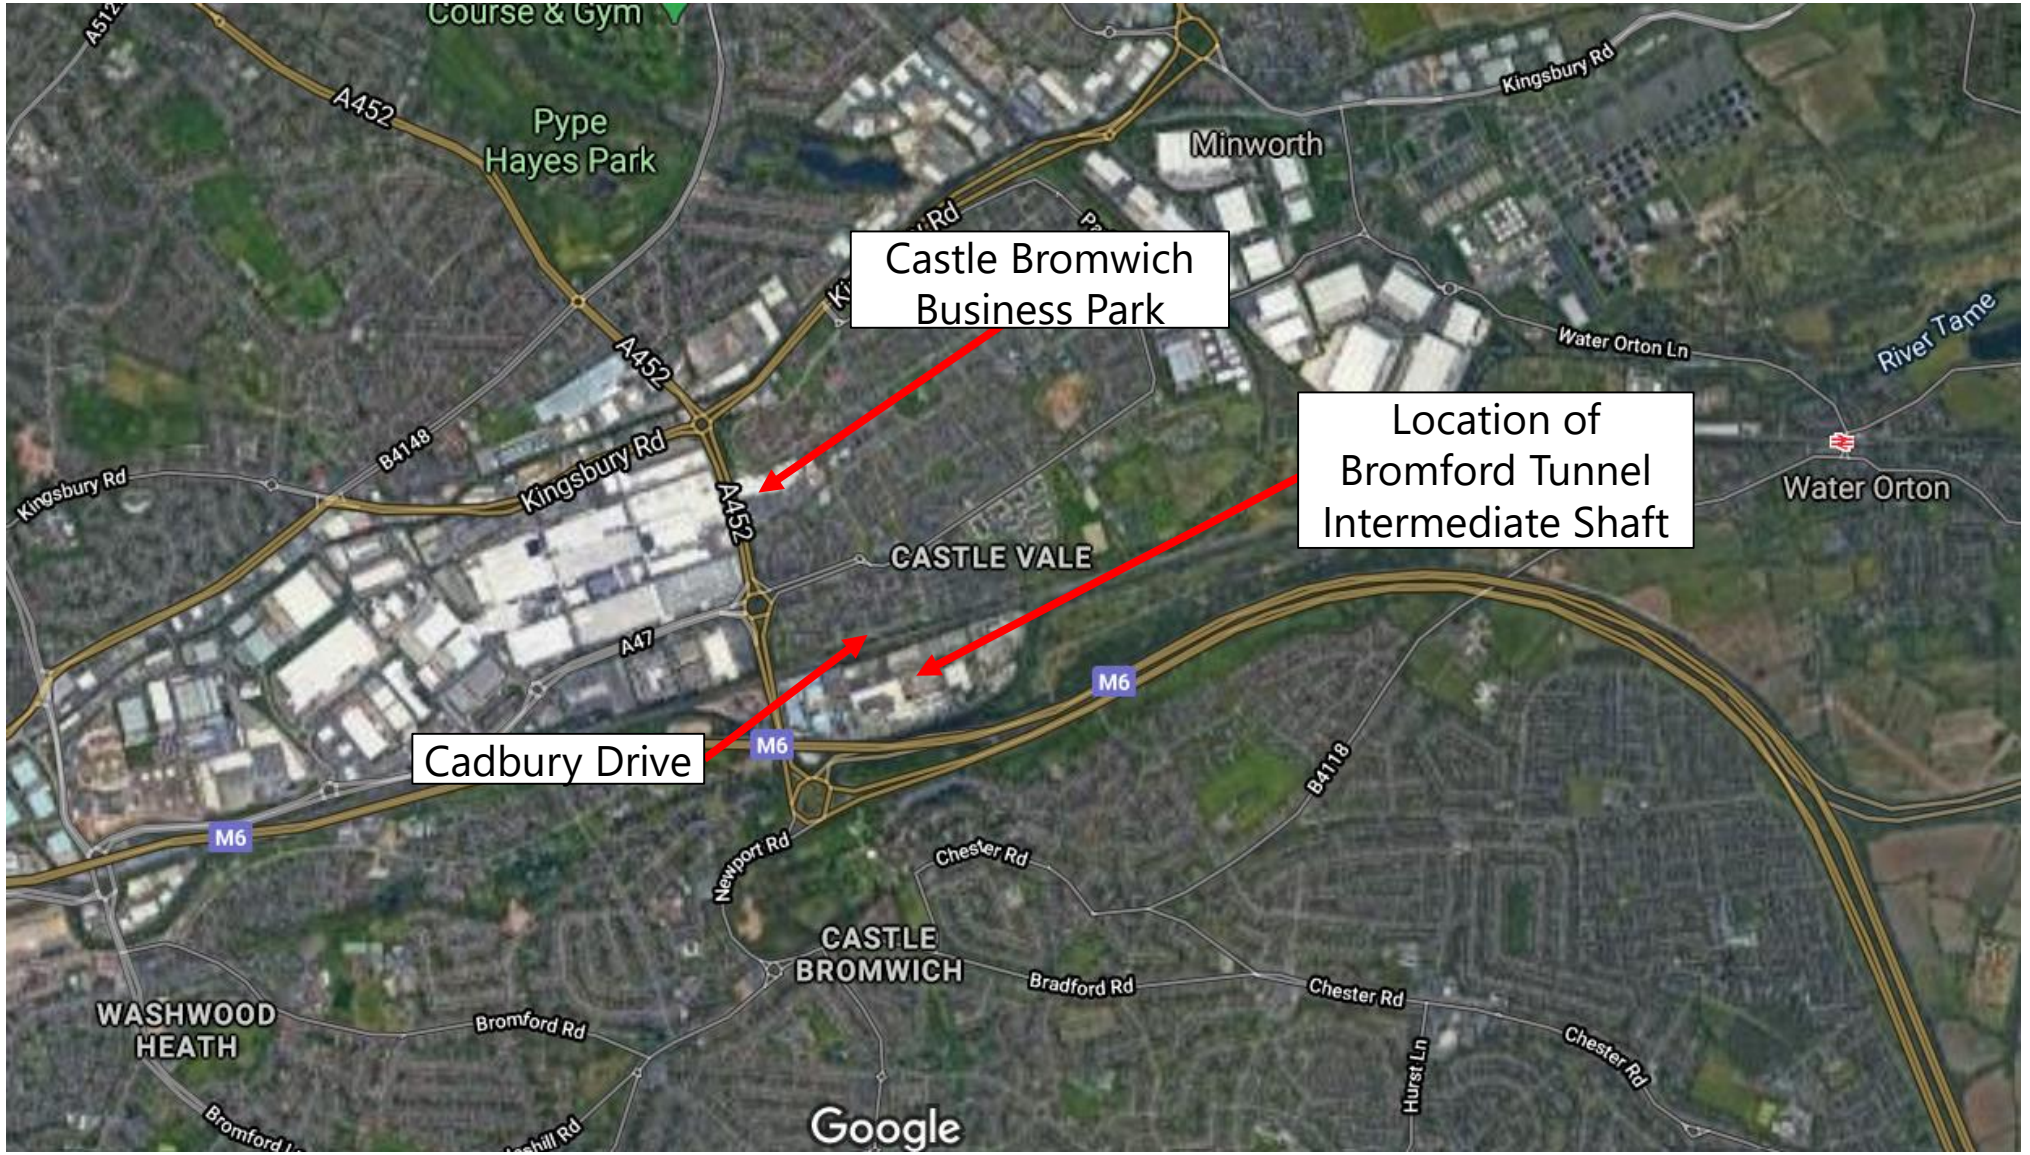

Bromford Tunnel Intermediate Shaft

- The BTIS will be located near Castle Bromwich Business Park.
- It will be an Emergency Entry-Exit building.
- The building will provide important electrical services to the running tunnels below ground.

Community Investment – Leaving a Legacy

- Our community investment programme is one of the ways we act as a good neighbour and give back to the communities disrupted by construction along the route.
- Two funds available to help local communities and businesses affected by the disruption caused by HS2 construction.
- The funds are administrated and managed by Groundwork UK.

Community and Environment Fund

£40 million to support local projects

Affected communities can apply for funding to help with:

- Pedestrian or cycle access
- Nature and landscape conservation
- Sports and recreational facilities
- Public open spaces
- New community facilities
- Historic buildings and monuments

Apply by visiting hs2funds.org.uk
